

NHS National Temporary Staffing Conference 2017

Newmarket Racecourse Conference Centre - 16th March 2017

NHS Trusts are under unprecedented pressure to reduce their temporary staffing spend against a backdrop of growing demand for NHS services. At the same time, NHS organisations continue to face increasing expenditure on agency workers across all staff groups, leading to a multi-billion pound spend last financial year.

Despite increasing pressure from government, NHS Trusts have struggled to reduce their spend due to a variety of factors. As a result, measures have been introduced to mandate the use of approved frameworks and agency rates have been capped.

The East of England NHS Collaborative Procurement Hub invites you to attend its sixth national agency staff conference to highlight ways in which NHS organisations can manage their demand more effectively and share best practice through proven case studies.

This event is **FREE to NHS personnel** who are involved in booking agency staff in whatever capacity, or who have an interest in reducing costs in this area.

There will also be a supplier exhibition in which NHS staff will have the opportunity to meet agencies who appear on NHSI-approved national frameworks.

[To register to attend FREE as an NHS employee, click here.](#) (Bookings from non NHS personnel will be deleted and no admittance will be permitted to the conference.)

[To attend as framework supplier by booking a stand, click here.](#) (Bookings from off-framework suppliers will not be accepted and may incur cancellation charges.)

If viewing a printed copy of this leaflet, please visit the events page on our website for both NHS and Supplier booking links: <http://www.eoecph.nhs.uk/Events.htm>
