We would like to hear your feedback on this framework and how you think we could improve it in the future.

Scope of Services

The Audit and Consultancy Audit Services Framework is designed to create a simple and efficient solution for those looking to procure trustworthy auditors and advice from pre-approved suppliers. Through our extensive list of suppliers, and mini competition you can determine which one best meets your needs and specifications.

With a wide scope of services captured, the framework allows for a wide range of bespoke and locally specific audit needs. The framework has been structured to incorporate five lots, which are:

- Lot 1 Statutory (External);
- Lot 2 Internal Audit;
- Lot 3 Counter Fraud;
- Lot 4 Internal Audit & Counter Fraud;
- Lot 5 Consultancy and Business Audit;

Benefits of Using this Framework

Call-off Order Contracts awarded under the framework are valid for a period of up to four (4) years.

NHS Trusts may benefit from free training and advice as well as locally tailored services.

Compliant The framework provides awarding authorities with legally compliant access to the market, with the benefits of significantly reduced procurement timescales and access to cost-effective and quality approved suppliers. This framework is already EU/UK Compliant - we've already done the procurement work, so there's no need to run a full EU tender.

Suppliers listed on the framework were assessed during the procurement process for their track record, experience and technical & professional ability, before being awarded a place on the framework.
