Hub Contact:
Sandra Atik, Head of Business Services
Tel: 07983 339079
E: sandra.atik@eoecph.nhs.uk

Background

The East of England NHS Collaborative Procurement Hub worked closely in partnership the NHS Counter Fraud Authority to develop a framework aimed at preventing and investigating fraud within the NHS. The Statutory Audit and Multi-Specialty Audit and Advisory Consultancy Services framework enables members to access audit services through a legally compliant route which conform to current and future legislation and audit best practice requirements.

Contract Benefits

Financial

Ceiling rates are in place which can be reduced further via a competition. Suppliers' pricing remains anonymised and confidential to help maintain competitive pressure.

Compliance

Suppliers are compliant with the relevant boards and codes of practice. The framework is already compliant, removing the need to run a full tender. Benefits include significantly reduced procurement timescales and access to cost-effective and quality assured suppliers.

Competence

Suppliers listed on the framework were assessed during the procurement process on their track record, experience and technical and professional ability and all demonstrated audit experience of publicly-funded entities before being awarded a place on the framework.

Call-off order contracts awarded under the framework are valid for a period of up to five years.

NHS trusts may benefit from free training and advice as well as locally tailored services.

Members may pick from an extensive list of suppliers and, if desired, use a mini-competition to determine which one best meets their needs and specifications

The Hub is a collaborative NHS organisation that works with customers by using procurement and commercial expertise to drive value and efficiencies across the NHS.

Statutory Audit and Multi-Specialty Audit and Advisory Consultancy Services

Scope of Services

With a wide scope of services, the framework covers a comprehensive range of bespoke and locally specific audit needs.

The framework comprises eight lots.
