WELCOME

The East of England NHS Collaborative Procurement Hub was originally established by the region's trusts in 2006, founded on a simple belief: collaboration makes us stronger. Since then, we have grown into a procurement and advisory partner for organisations across the NHS and wider public sector supporting members, non-members, regional systems and national programmes alike.

As the landscape has evolved, so have we. What began as a member created organisation is now a flexible, multi-access hub offering a range of ways to work with us: through membership, service partnerships, consultancy support or direct use of our frameworks.

What has never changed is our commitment to strengthening the organisations and communities we serve. From trusts and ICSs to local authorities and emergency services, we help partners turn complex challenges into shared achievements.

Today, we're more than a procurement hub; we're a collaborative force for progress. By bringing people, insight and innovation together, we help organisations deliver value, efficiencies and expertise where they are needed most.

As the landscape continues to evolve, so will we – guided by the same belief in collaboration that has defined our journey from the very start.

This guide will help you access our frameworks confidently and efficiently, ensuring compliance and maximising value. If you need further support at any stage, our team is here to help.

AMBULANCE@EOECPH.NHS.UK

[NEXT SECTION](#)

WHY USE THIS FRAMEWORK

Every Hub framework is designed with one goal in mind: to give you a fast, compliant and high-quality route to market that helps you deliver the best outcomes for your teams, patients and communities.

By using this framework, you benefit from years of shared expertise, strong supplier relationships and the combined strength of regional and national collaboration. You can move quickly, confidently and compliantly knowing that every framework has been built to save time, reduce risk and maximise value.

Whether you're running a mini competition or exploring a direct award, you'll have clear guidance, compliant processes and support grounded in our expertise in public procurement regulations. Our role is to provide robust frameworks and the assurance that your procurement activity meets the required standards every step of the way.

Choosing a Hub framework isn't about ticking a box – it's about unlocking better outcomes, faster.

- ✓ **Confidence from the start:** Fully compliant, quality assured frameworks.
- ✓ **Save time and money:** Streamlined routes to market reduce procurement costs and administrative burden.
- ✓ **Tailored to you:** Award options that fit your timelines, service requirements and organisational context.
- ✓ **Impact that matters:** Suppliers who understand the unique challenges of public and health sector organisations, delivering measurable value, efficiency and improved outcomes.

With every framework, you gain more than a contract. You gain a partner committed to strengthening your organisation and the communities you serve.

WHY CHOOSE THE HUB?

We offer a range of ways to work with us as a member, a framework user, a commissioning partner or through bespoke consultancy support.

KNOWLEDGE

Extensive NHS and wider public procurement expertise supported by regional insight and national collaboration.

SUPPORT

Hands on guidance throughout the process, offering friendly, impartial advice whether you're a member or engaging with us through another route.

CHOICE

A wide range of pre-qualified suppliers across multiple lots and service types.

COMPLIANCE

Fully aligned with the relevant regulations assured through robust governance.

EASE OF USE

Templates, guidance and support that make procurement simple, smooth and efficient.

VALUE BEYOND COST

Our frameworks and services deliver more than savings they support better planning, reduced risk, operational improvement and measurable outcomes.

MULTIPLE WAYS TO PARTNER

Join as a member, use our frameworks, commission standalone projects or access consultancy support.

INCLUSIVE ACCESS

Any NHS and wider public sector organisation can use our frameworks free of charge.

MARKET INSIGHT

Enhanced understanding of supplier markets and system-wide priorities through strong national partnerships.

TRUSTED EXPERTISE

Built from supporting both members and non-member organisations across health and public sector settings.

A COMMITMENT TO SYSTEM WIDE IMPROVEMENT

Helping organisations deliver better outcomes together.

02 THE FRAMEWORK

This framework supports the supply of emergency medical consumables and equipment, providing an alternative route to market for NHS Ambulance Trusts and emergency services organisations.

Its core purpose is to support contracting authorities in building resilient supply chain options. Ambulance Trusts will continue to use NHS Supply Chain for clinical sundries as their primary route. This framework provides additional assurance when rationing, non-supply or wider supply chain disruption occurs. This approach helps organisations respond more quickly to supply risk and strengthens the NHS's ability to manage and mitigate disruption.

While the framework is primarily designed for NHS use, it also includes provisions that enable non-NHS organisations to access and benefit from it. This approach allows a organisations to leverage NHS buying power when securing clinical supplies and equipment.

An innovative product database underpins the framework, covering a broad range of consumables and equipment. It allows buyers to search flexibly using multiple fields, improving accessibility and speed of procurement.

04 APPENDICES

FRAMEWORK BENEFITS

AT A GLANCE

Our frameworks are free to access for all NHS organisations.
Membership is not required.

FREE TO ACCESS

For NHS organisations and publicly funded entities, in whole or in part throughout the whole of the UK, including Northern Ireland, Scotland and Wales

FLEXIBLE PROCUREMENT ROUTES

Or streamlined procurement options: mini competition or direct award

PRACTICAL, TAILORED SUPPORT

At every stage of the procurement process.

CUSTOMISED

End-to-end support from the Hub team

ACCESS

To experienced, pre-qualified suppliers

COST EFFICIENCY

Via price per unit.

FRAMEWORK

Managed and monitored with customer feedback incorporated

SOCIAL VALUE

Embedded in supplier selection

INFORMED

By regional insight, aligned with national priorities and supported by strong supplier relationships.

[NEXT SECTION](#)

FRAMEWORK OVERVIEW

This buyers' guide and mini competition document is intended to provide information about the Emergency Medical Consumables and Equipment framework and to provide practical support and documentation to contracting authorities who wish to procure products under the framework.

Please note, the guidance provided within this document applies only to this framework. Contracting authorities should ensure they refer to the specific guidance document relevant to any other framework agreement they wish to access to ensure that the right processes are being followed.

The framework has been set up for medical consumables and medical equipment to be costed on a price per banded price basis via utilisation of the framework database. Awards against this framework can be undertaken via two options:

**OPTION 1:
MINI COMPETITION**

**OPTION 2:
DIRECT AWARD**

The Emergency Medical Consumables and Equipment framework sets service specialisms relevant to the services to be delivered under each lot and core key characteristics and capabilities for supplier skills and abilities. See the EMCE database for full information on capabilities, suppliers and pricing.

To learn more about the framework, watch our [introductory video](#).

To learn how to use the database, see this [video demonstration](#).

Within the database you can search such fields as, Supplier, Category, GTIN number, Manufacture product code, Unit of Issue, NHS Supply Chain code, Size, Weight & Pricing.

It's envisaged that the database will reduce the amount of administration at contracting authority and supplier & will lead to more efficient communication as a result.

On the anniversary of the framework EoECPH will implement a CPI Indexation uplift within the database, so that contracting authorities will always have the framework price that's applicable. Please note that some suppliers have opted out of the CPI uplift.

 [NEXT SECTION](#)

FRAMEWORK OVERVIEW

This framework agreement is delivered by NHS Commercial Alliance, a strategic partnership between NHS Commercial Solutions and the East of England NHS Collaborative Procurement Hub. The alliance provides specialised procurement solutions to all 14 ambulance trusts nationally through a dedicated membership model, strengthening consistency, resilience and buying power across ambulance services.

The framework was designed with small and medium-sized enterprises (SME's) in mind and has attracted twenty seven such organisation resulting in circa 77% of the framework being covered by SME Suppliers.

THE BENEFITS OF THE FRAMEWORK ARE:

- ✓ The framework allows for access to manufacturers, distributors and wholesalers
- ✓ The framework agreement aligns with the Ambulance National Load List using categorisation
- ✓ The database contains relevant information to enable trusts to map direct product and equipment
- ✓ Equipment (Where appropriate) has secured the relevant Pre-Acquisition Questionnaire (PAQ Form) and will use the database to facilitate trusts gaining that document.
- ✓ Prices secured for 12-month period.
- ✓ CPI Indexation approach to pricing for remain term of the agreement.
- ✓ Capturing Scan4safety requirements from suppliers.
- ✓ Social Value & Sustainability commitments from suppliers.

FRAMEWORK OVERVIEW

THIS FRAMEWORKS CONSISTS OF 4 LOTS:

Lot 1	Emergency Medical Consumables – Manufacturer
Lot 2	Emergency Medical Equipment – Manufacturer
Lot 3	Emergency Medical Consumables and Equipment – Distributor
Lot 4	Emergency Medical Consumables and Equipment – Wholesaler

Access to framework documentation will be provided following receipt of a completed and signed access agreement. Access agreements can be requested from ambulance@eoecph.nhs.uk.

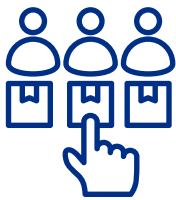

SUPPLIERS AND LOTS

Lot 1

Emergency Medical Consumables – Manufacturer

Each awarded supplier has confirmed that the products they are offering under the framework are CE marked (in accordance with question PM1 of the procurement documents).

SUPPLIERS ON LOT 1:

Ambu Ltd
Clement Clarke International Ltd
COOK (UK) LTD
Draeger Medical UK Ltd Primary
Flexicare Medical Ltd
Intersurgical Ltd
Mangar International
Meditrade UK Ltd
Mölnlycke Health Care Ltd
O&M Halyard Health UK Ltd
Proact Medical Ltd
RB Medical Engineering Ltd
Reliance Medical Ltd
Safeguard Medical Technologies Ltd
Smith+Nephew
SP Services (UK) Ltd
Stryker UK LTD
TFX Group Ltd
TraumaMed Solutions
ZOLL Medical UK Ltd

SUPPLIERS AND LOTS

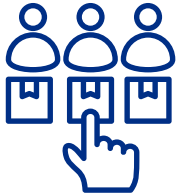

Lot 2

Emergency Medical Equipment – Manufacturer

Each awarded supplier has confirmed that the equipment they are offering under the framework are:

- ✓ UKCA (UK Conformity Assessed) marked, or CE marked (in accordance with question MDM1 of the procurement documents).
- ✓ ISO13485 certified (in accordance with question MDM2 of the procurement documents).

SUPPLIERS ON LOT 2:

BNOS Meditech
Direct Healthcare Group
Draeger Medical UK Ltd Primary
Frontier Therapeutics Ltd
Hospital Direct Ltd
Mangar International
Proact Medical Ltd
Reliance Medical Ltd
Safeguard Medical Technologies Ltd
SP Services (UK) Ltd
Stryker UK LTD
ZOLL Medical UK Ltd

SUPPLIERS AND LOTS

Lot 3

Emergency Medical Consumables and Equipment – Distributor

Each awarded supplier has confirmed that the products or equipment they are offering under the framework are:

- ✓ UKCA (UK Conformity Assessed) marked, or CE marked (in accordance with question MDM1 of the procurement documents).
- ✓ ISO13485 certified (in accordance with question MDM2 of the procurement documents.)

SUPPLIERS ON LOT 3:

Anser Medical Ltd
 BTME Group Ltd T/A Medtree
 CODAN Limited
 Critical Healthcare
 Draeger Medical UK Ltd Primary
 DS Medical
 Fenton Pharmaceuticals Ltd
 Headington Medical Technology Ltd
 Ortus Technology Limited
 Proact Medical Ltd
 RB Medical Engineering Ltd
 Reflex Medical Limited
 Reliance Medical Ltd
 SP Services (UK) Ltd
 Stryker UK LTD
 TraumaMed Solutions

SUPPLIERS AND LOTS

Lot 4

Emergency Medical Consumables and Equipment – Wholesaler

The awarded supplier has confirmed that products or equipment they are offering under the framework are UKCA (UK Conformity Assessed) marked, or CE marked (in accordance with question WM1 of the procurement documents).

SUPPLIERS ON LOT 4:

Mediq Healthcare UK Ltd

03 PROCUREMENT CONSIDERATIONS

>>> THIS WAY TO:

01 ABOUT US

02 THE FRAMEWORK

04 APPENDICES

PROCUREMENT PROCESS

We provide flexible, compliant options to secure services from the framework:

MINI COMPETITION

- ✓ Publish your service specification to all eligible suppliers in the lot.
- ✓ Evaluate responses using criteria tailored to your local needs.
- ✓ Award the contract and obtain an order **code** for call-off references

DIRECT AWARD

- ✓ Select the best value supplier based on:
 - framework information
 - available intelligence
- ✓ An efficient, compliant approach using pre-evaluated suppliers.

TIPS FOR SUCCESS:

1

Tailor your needs

Focus on your bespoke needs rather than capability checks (suppliers are pre-qualified).

2

Provide information

Make sure to provide sufficient information to allow accurate responses.

3

Share pricing

Share pricing with the Hub for due diligence before final award.

4

Engage stakeholders

Engage with relevant stakeholder prior to going to out to tender (include early on in tender).

5

Plan ahead

Allow sufficient time for a comprehensive submission.

6

Pre-market engagement

Run pre-market engagement prior to issuing a tender.

[NEXT SECTION](#)

PROCUREMENT PROCESS

IMPORTANT INFORMATION

This Hub framework is managed by the Ambulance and Training team. If you have any queries concerning the framework or competition requirements, please contact them via email at ambulance@eocph.nhs.uk. We aim to respond to all queries within two working days of receipt.

- ✓ Terms and conditions have been issued for the framework; these should be incorporated into any call-off order contract awarded against the framework. Contracting authorities should not accept alternative terms offered by a supplier where they do not reference and accept the overarching requirements of the framework agreement.
- ✓ The call-off order provides additional information and can be found in the documentation provided. This form should be completed and signed off by both parties (the contracting authority and supplier) on award and a copy returned to ambulance@eocph.nhs.uk. The Hub will issue an access code which must be included on all contractual documentation for compliance.
- ✓ Local specifications should not include or ask for information which is considered qualifying or references capability or eligibility requirements. The framework provides this assurance, mini competitions should focus on bespoke needs and the ability to deliver the services required.
- ✓ Contracting authorities should ensure questions asked in the mini competition are relevant to their local needs and requirement when mini competition is carried out.
- ✓ Please ensure you provide sufficient information to enable the suppliers to respond to your mini competition.
- ✓ The EMCE database is available to use in conjunction with the framework. It contains relevant banding price arrangements based on lots.
- ✓ The framework sets banded prices: 1 to 17 bands for lots 1, 2 and 3 and 1 to 9 for lot 4 which can be viewed in the EMCE database. Mini competitions can be run by the contracting authorities using the framework database price as a guide towards potential mini competition commercial offerings.

 [NEXT SECTION](#)

PROCUREMENT PROCESS

IMPORTANT INFORMATION

- ✓ The Hub will carry out due diligence on pricing submitted through mini competition on behalf of the contracting authority. Prices submitted under the framework are treated as commercially confidential and are not published to support fair competition and enable providers to offer their best prices through mini competitions. Please submit the mini competition's preferred bidder's prices to enable the due diligence to be carried out ahead of a supplier's award via email to ambulance@eoecph.nhs.uk.
- ✓ The scope of products and consumables are outlined in the Category List found at [page 25](#) of this buyers guide. If you require more information on a supplier's ability, such as clarification on their inclusion in Frameworks or to access case studies, please contact ambulance@eoecph.nhs.uk.
- ✓ This framework operates a KPI regime that was contained as a part of the procurement documentation and was specifically designed for the framework agreement. Contracting authorities can implement their own KPI regime as part of their call off arrangements.

 [NEXT SECTION](#)

PROCUREMENT PROCESS

MINI COMPETITION AND DIRECT AWARD

ORDER CODE

Contracting authorities must obtain a unique order code after calling off from the framework. This code must be quoted on all correspondence, commercial documents and contractual paperwork issued to the supplier.

MINI COMPETITIONS

Mini competition is the preferred procurement route as it provides transparency and helps ensure best value for money.

Process:

- ✓ The contracting authority publishes a service specification for the mini competition.
- ✓ All eligible suppliers must be invited to submit a response.
- ✓ Responses are evaluated using the criteria set out in the mini competition documents.
- ✓ The Hub provides governance and assurance on price per unit and contract costs submitted as part of the competition.
- ✓ When a contract is awarded and both parties have signed the call-off order, the contracting authority obtains an order code from their procurement support supplier or from the Hub.

Contracting authorities may tailor or refine the evaluation criteria when re-opening competition to reflect local priorities.

EXAMPLE:

EoECPH are able to support with the provision of templates to enable you to run a Mini Competition, however you are also able to utilise your own internal templates.

All eligible Suppliers are invited to submit responses which are evaluated using predefined criteria outlined in the Mini Competition documents. During a Mini Competition, a Buyer may tailor the evaluation criteria to address specific local needs, ensuring maximum value for both the organisation and the community.

Upon awarding a contract, the Buyer must obtain an access code from EoECPH, which is needed once both parties sign the call-off order.

PROCUREMENT PROCESS

The mini competition documents include drafting notes **DN [TEXT ENTERED BY WAY OF INFORMATION]**. These are to be deleted as you complete the tender with your local bespoke needs and should not be left in at the point you issue the mini competition to suppliers.

DIRECT AWARD

Direct award without mini competition is permissible where the contracting authority can clearly demonstrate best value for money from a single supplier.

This may be evidenced through:

- ✓ Framework information
- ✓ The EMCE database
- ✓ Supplier websites
- ✓ Market intelligence
- ✓ Other credible sources of information

Direct award should only be used when the requirement and the market make the selection of the supplier clear and justified.

While supplier pricing remains commercial-in-confidence and is not published in framework documentation, it is available on request to support contracting decisions.

 [NEXT SECTION](#)

TEMPLATES

Base templates for a mini competition under this framework are included within the document set. Please ensure all yellow highlighted drafting areas/notes are completed and deleted where necessary prior to publication.

Once the mini competition process is complete, you should communicate your decisions to suppliers who have submitted bids.

The use of these templates is not mandatory for mini competitions under this framework and contracting authorities are able to use their own documents.

MINI COMPETITION (EVALUATION CRITERIA AND TEMPLATE DOCUMENTS)

When a contracting authority wishes to undertake a mini competition, they have the option to review the evaluation criteria against their local needs and update certain elements as required.

The evaluation criteria can be amended at mini competition stage and emphasis can be placed onto areas which best reflects the contracting authority's needs or business objectives. Where no special emphasis is needed, the weighting and sub-criteria can remain unchanged.

GENERIC MINI COMPETITION EVALUATION HEADINGS FOR LOCAL CONTEXT:

1	Social value	10%, or as detailed by the contracting authority
		✓ Climate change (framework level) ✓ Economic inequality (framework level)
2	Quality	60%, or as detailed by the contracting authority
		✓ Approach to local delivery for the contracting authority ✓ Planning, transition and implementation
3	Commercial	30%, or as detailed by the contracting authority
		✓ Cost and competitiveness (cost per unit).

Contracting authorities have flexibility to adjust the components and weightings under the broad evaluation headings to reflect their local requirements. For example, they may choose to focus heavily on a particular criterion, such as commercial or quality assurance. However, social value must always carry a minimum weighting of 10% in the evaluation to ensure this factor is considered in every procurement.

TEMPLATES

CALL-OFF ORDER CONTRACT TERM

Please ensure you use the call-off order contract template and terms and conditions provided in the document set to secure services under this framework for both mini competition and direct award. As noted within the framework agreement, alternative terms and conditions may be used where both parties agree. Examples of some differing terms and conditions can be found within the framework agreement. Where different terms and conditions are utilised, these must be detailed within the order form.

IMPORTANT NOTE:

Once a call-off contract is signed by both parties, request a unique order code from the Hub. Returning a fully signed call-off order to ambulance@eocph.nhs.uk ensures your contract is officially recognised and allows you to:

- Legally call off services under the framework
- Quote the order code on all correspondence and commercial documents
- Benefit from framework governance and support throughout the contract

COMPLIANCE AND GOVERNANCE

- ✓ Framework fully compliant with PCR 2015
- ✓ A database approach that contains relevant banding price arrangements based up on lots.
- ✓ Hub oversight ensures governance, compliance and protection throughout the procurement process

ETHICAL COMMITMENTS

MODERN SLAVERY

A modern slavery risk assessment was undertaken at framework level and the overall risk has been assessed as **medium**.

SOCIAL VALUE

Social Value has been embedded at framework level in line with PPN 06/20, with a 10% qualitative weighting applied to the overall quality score, in accordance with government policy and NHS requirements.

Two Social Value themes have been applied to this framework, reflecting the nature of consultancy and transformation services and the way social value can be delivered proportionately through service delivery models rather than core outputs.

THEME 2: TACKLING ECONOMIC INEQUALITY

Theme 2: Tackling Economic Inequality has been applied, with a focus on:

MAC2.2: Create employment and training opportunities particularly for those who face barriers to employment and/or who are located in deprived areas, and for people in industries with known skills shortages or in high growth sectors.

MAC 3.4: Demonstrate collaboration throughout the supply chain, and a fair and responsible approach to working with supply chain partners in delivery of the contract.

NET ZERO AND CARBON REDUCTION COMMITMENTS

As part of the framework establishment process, suppliers were required to provide a Carbon Reduction Plan in line with PPN 06/21.

In addition to providing a carbon reduction plan, suppliers asked to start and undertake an Evergreen maturity assessment.

Emergency Consumables	Other	Plasters
Emergency Consumables	Other	Razor
Emergency Consumables	Other	Scissors - Tough Cut
Emergency Consumables	Patient	Ambulance Stretcher sheets
Emergency Consumables	Patient	Blanket Systems - Adult
Emergency Consumables	Patient	Blanket Systems - Paediatrics
Emergency Consumables	Patient	Other
Emergency Consumables	Patient	Blanket - Silver Foil
Emergency Consumables	Patient	Incontinence Sheets
Emergency Consumables	Patient	Patient Medication Bag
Emergency Consumables	Patient	Patient Property Bag
Emergency Consumables	Patient	Tissues
Emergency Consumables	Patient	Urine receptacle
Emergency Consumables	Patient	Vomit bag
Emergency Consumables	Patient Transfer	Belts
Emergency Consumables	Patient Transfer	Lifting Cushion Consumables
Emergency Consumables	Patient Transfer	Other - Patient Transfer
Emergency Consumables	Patient Transfer	Stretcher Consumables

CATEGORIES LIST

Category	Sub Category 1	Sub Category 2
Emergency Consumables	Patient Transfer	Slide Sheet
Emergency Consumables	Pipeline	Other - Pipeline Consumables
Emergency Consumables	Pipeline	Oxygen Flow Meter Consumables
Emergency Consumables	Pipeline	Pipeline regulators consumables
Emergency Consumables	Pipeline	Suction Pumps Consumables
Emergency Consumables	PPE	Duodote anti-nerve agent protection
Emergency Consumables	PPE	Alcohol Gel / Sanitizer
Emergency Consumables	PPE	Apron
Emergency Consumables	PPE	Body suits / coveralls
Emergency Consumables	PPE	Disposable Surgical Face Mask (11R)
Emergency Consumables	PPE	Examination Gloves
Emergency Consumables	PPE	Face mask with visor
Emergency Consumables	PPE	FFP3 Masks
Emergency Consumables	PPE	Gloves - Heavy Duty
Emergency Consumables	PPE	Hand Moisturiser
Emergency Consumables	PPE	Shoe/ Boot Covers
Emergency Consumables	PPE	Sleeve Protectors
Emergency Consumables	Pulse Oximetry	Other - Pulse Oximetry

CATEGORIES LIST

Category	Sub Category 1	Sub Category 2
Emergency Consumables	Pulse Oximetry	Pulse oximeter Sensors
Emergency Consumables	Respiratory Personal Consumables	Powered Hoods Consumables
Emergency Consumables	Rubbish/Cleaning	Absorbent Gel
Emergency Consumables	Rubbish/Cleaning	Air freshener
Emergency Consumables	Rubbish/Cleaning	Blue Towell Roll
Emergency Consumables	Rubbish/Cleaning	Clinical Waste Bags
Emergency Consumables	Rubbish/Cleaning	Clinical waste tie
Emergency Consumables	Rubbish/Cleaning	Domestic waste bags
Emergency Consumables	Rubbish/Cleaning	Red alginate laundry bag
Emergency Consumables	Rubbish/Cleaning	Spill Kit - Blood, urine & vomit
Emergency Consumables	Rubbish/Cleaning	Wipes - Detergent & Disinfectant
Emergency Consumables	Therapy	Hot & Cold Packs (Single Use)
Emergency Consumables	Thermometers	Tympanic Cover
Emergency Consumables	Trauma	Other - Trauma
Emergency Consumables	Trauma	Vacuum Splint Consumables
Emergency Consumables	Trauma	Immobilisation Collar
Emergency Consumables	Trauma	MT tourniquet - CAT/trauma/major hem
Emergency Consumables	Trauma	Non-Occlusive Chest Seal

CATEGORIES LIST

Category	Sub Category 1	Sub Category 2
Emergency Equipment	Airway Management	Direct Laryngoscopes
Emergency Equipment	Airway Management	Other - Airway Management Equipment
Emergency Equipment	Airway Management	Video Laryngoscopes
Emergency Equipment	Assessment	Blood Glucose Monitor
Emergency Equipment	Assessment	Oxygen Saturation Probe
Emergency Equipment	Defibrillation	Defib
Emergency Equipment	Drug Equipment	Demand units (Entonox / Oxygen)
Emergency Equipment	Drug Equipment	Intraosseous Driver
Emergency Equipment	Electrocardiogram	ECG Monitors
Emergency Equipment	Hoist	Bariatric hoist
Emergency Equipment	Lighting	Flashlights
Emergency Equipment	Lighting	Medical Pen Torch
Emergency Equipment	Patient Transfer	Carry Chair with tracks
Emergency Equipment	Patient Transfer	Handling belt
Emergency Equipment	Patient Transfer	Lifting Chair
Emergency Equipment	Patient Transfer	Lifting Cushion
Emergency Equipment	Patient Transfer	Paediatric Securing Device
Emergency Equipment	Patient Transfer	Soft turntable / Flexi disk

CATEGORIES LIST

Category	Sub Category 1	Sub Category 2
Emergency Equipment	Patient Transfer	Stretcher
Emergency Equipment	Patient Transfer	Transfer Board / Banana Board
Emergency Equipment	Patient Transfer	Trolley Overlay
Emergency Equipment	Pipeline	Other Equipment
Emergency Equipment	Pipeline	Oxygen Flow Meter
Emergency Equipment	Pipeline	Pipeline regulators
Emergency Equipment	Pipeline	Suction Pumps
Emergency Equipment	PPE	Safety goggles
Emergency Equipment	Pulse Oximetry	Pulse oximeter
Emergency Equipment	Respiratory Personal Equipment	Powered Hoods
Emergency Equipment	Sphygmomanometers	
Emergency Equipment	Stethoscope	
Emergency Equipment	Therapy	Hot & Cold Packs (Reusable)
Emergency Equipment	Thermometers	Non-contact Thermometer
Emergency Equipment	Thermometers	Tympanic
Emergency Equipment	Trauma	Fracture Straps (Pack)
Emergency Equipment	Trauma	Head Blocks + Strappall tape
Emergency Equipment	Trauma	Pelvic Splint

CATEGORIES LIST

Category	Sub Category 1	Sub Category 2
Emergency Equipment	Trauma	Scoop Stretcher
Emergency Equipment	Trauma	Scoop Stretcher Strap
Emergency Equipment	Trauma	Spinal Board / Extrication Board
Emergency Equipment	Trauma	Spinal Board / Extrication Board straps
Emergency Equipment	Trauma	Traction Device
Emergency Equipment	Trauma	Vacuum Splint
Emergency Equipment	Ventilation	Mobile Ventilator
Training Equipment & Consumables	Emergency Training Consumables	Basic Life Support Training Consumables
Training Equipment & Consumables	Emergency Training Equipment	Anatomical Training aids
Training Equipment & Consumables	Emergency Training Equipment	Basic Life Support Training Equipment
Training Equipment & Consumables	Emergency Training Equipment	Mannequins

The Hub can help Partnership with Purpose

Contact us
